Business Activity

Automotive and Financial Services

Operating income from the Group’s automotive and financial services businesses, excluding associates and joint ventures, was 15% lower in the first quarter of 2009 at Rp932 billion. The Group’s share of results from its automotive and financial services associates and joint ventures was Rp376 billion, a reduction of 25%.

The wholesale market for motorcars reduced by 26% to some 100,000 units compared to the first quarter of 2008. Astra’s motorcar sales decreased by a lower rate of 13% to about 58,000 units, leading to an increased market share of 58%. Astra launched several facelift models and new models during the period, including the Toyota Hilux D Cab 4x4 and the Daihatsu Luxio 1,500 cc.

The wholesale market for motorcycles fell by 15% to some 1.2 million units. Astra Honda Motor’s sales were 9% lower at about 585,000 units, resulting in a higher market share of 48%. During the first quarter, Astra Honda Motor launched the new Absolute Revo.

Sales at PT Astra Otoparts Tbk, which is 93.9%-owned, were 5% lower with a decrease in its export market. Its net income fell by 20% to Rp132 billion.

The results of the Group’s financial services activities reduced in line with automotive sales. The amount financed by Federal International Finance and Astra Credit Companies decreased by 10% to Rp5.6 trillion. The net income of 44.5%-held associate, PT Bank Permata Tbk, was Rp165 billion for the quarter, 5% below the previous year.

Operating income from the Group’s resources and other businesses, comprising agribusiness, heavy equipment, mining, information technology and infrastructure, reduced 18% to Rp1.7 trillion.

The net income of PT Astra Agro Lestari Tbk, which is 79.7%-owned, was 74% lower at Rp218 billion. This was due to a sharp fall in crude palm oil prices achieved, which were on average 32% lower than in the first quarter of 2008, and a 9% fall in production to some 226,000 tonnes.

PT United Tractors Tbk, which is 59.5%-owned, produced a net income of Rp812 billion for the three months, 57% up on the previous year with improved results from both its mining activities and heavy equipment sales. Mining contracting subsidiary, PT Pamapersada Nusantara, increased its coal extraction by 3% to 15 million tonnes and overburden removal by 22% to 122 million bcm, while sales from its own mines amounted to almost 700,000 tonnes. Despite a 46% decline in Komatsu units sold, the profit arising on heavy equipment sales rose due to favourable US Dollar exchange rate movements, model mix and a greater turnover in higher margin parts.

PT Astra Graphia Tbk, which is 76.9%-owned, saw its net income decline due to reduced margins.

The Group’s infrastructure investments performed satisfactorily. The 30%-held PT PAM Lyonnaise Jaya, which operates the western Jakarta water utility system, increased its sales volume by 5% to 34 million cubic metres. Toll road operator, PT Marga Mandalasakti, which is 62.6% owned, reported a 2% decrease in traffic volume.

Prospects

The Group’s businesses experienced the effects of the global economic downturn in the first quarter of 2009. It is too early to assess the full impact on the Group’s results for the half year, although the recent easing of inflationary pressures and lower interest rates are expected to lead to an improvement in market sentiment.
